

Residential Magnetic Air & Dirt Separation

The removal of air and dirt is essential for an effective and efficient heating system. Flamco's new generation of air and dirt separators are a huge step forward. The XStream significantly prolongs the life of your heating system through a guaranteed reduction in energy consumption and class leading efficiency.

XStream Vent - Air Separator
XStream Vent-Clean - Air & Dirt Separator
XStream Clean - Dirt Separator

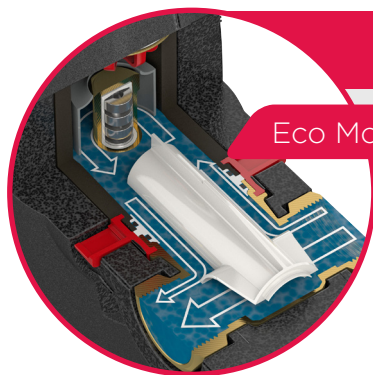

Available Sizes:
 $\frac{3}{4}$ " thru 2"

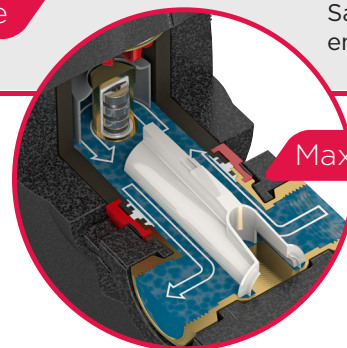

Features

- Available in three versions to suit your needs
- Two unique modes: ECO or MAX
- Improves system performance
- Saves up to 15% energy consumption
- Increases heating system efficiency up to 6%
- 360° rotating connection for ease of installation & bi-directional
- Powerful internal magnet
- Pre-installed insulation

Unique Eco and Max Mode

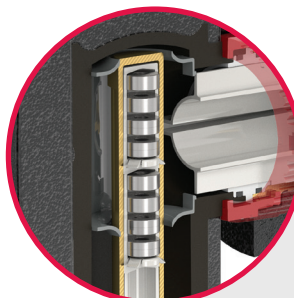

Eco Mode

Max Mode

Saves up to 15% energy consumption!

Smart Magnet Function:

Thanks to the powerful internal magnet, the Flamco XStream Clean and the Vent-Clean are efficient at the removal of magnetite from the system. The magnet is designed to create an optimal magnetic field which captures even the smallest magnetic particles.
