

The commercial Flamcovent Smart Stainless Steel air separator removes the smallest microbubbles from the system water. The innovative non-clogging design ensures pressure loss in the system is kept to a minimum.

Advantages:

- Up to 60% better performance compared to conventional air separators
- Extremely low flow resistance resulting in less energy consumption
- Non-clogging design ensures continuous operation in demanding environments
- 316 Stainless steel construction for superior corrosion resistance
- Ideal vertical markets: Data Centers and other mission-critical applications

| Materials & Design Data | |
|-----------------------------|---------------------|
| Shell | 316 Stainless Steel |
| Separating Element | 316 Stainless Steel |
| Air Vent | 316 Stainless Steel |
| Drain Plug | 316 Stainless Steel |
| Max Working Pressure | 150 PSI |
| Max Working Temperature | 250°F |
| Suitable for Glycol Systems | 50/50 |
| Standard Flow Velocity | Up to 9.8 ft/s |

Dimensions & Specifications

| Part Number | Size | | Type | Capacity [Gallon] | Dimensions [Inches] | | | | Cv | WT |
